RESUME

NAME: <u>Barov</u>, Stoyu Tzvetkov

AFFILIATION: Institute of Mathematics, Bulgarian Academy of Sciences

DEGREE RECEIVED: Ph.D., The University of Alabama, May 2001

PH.D. ADVISOR: PROF. JAN J. DIJKSTRA

GPA: 4.00

ADDRESS:

> Stoyu Barov
> Institute of Mathematics
> Bulgarian Academy of Sciences
> 8 Acad. G. Bonchev Str.
> 1113 Sofia, Bulgaria
> email: stoyu@hotmail.com

EDUCATION

May 2001	Graduated from The University of Alabama, Degree received: Ph.D. The title of the dissertation: "*ON SETS WITH CONVEX SHADOWS*", Ph.D. Advisor: PROF. JAN J. DIJKSTRA
June 1999	Ph.D. student at the University of Alabama, Tuscaloosa after passing the Qualifying Exams in Mathematics
August 1998 – May 2001	GTA and Graduate Student at The University of Alabama, Department of Mathematics, Box 870350, Tuscaloosa, AL 35487
1994-1995	Joined the Post-Graduate Program "High School Teacher of English" at New Bulgarian University, Sofia, Bulgaria. Completed the Post-Graduate Program "High School Teacher of English" by defending a thesis.
1992	I received my Master's degree in Mathematics at Sofia University, Sofia, Bulgaria. The title of the thesis: *" Some properties of gF-topological spaces, spaces of the classes of K and K', and hyperspaces endowed with the Tychonoff topology."* Advisor: Prof. George Dimov.

EMPLOYMENT

June 2004 – present	Researcher at the Bulgarian Academy of Sciences – Institute of Mathematics, Sofia, Bulgaria
August 2001 - May 2004	Assistant Professor at Ball State University
August 1998 - May 2001	Graduate Teaching Assistant at The University of Alabama, Tuscaloosa, AL 35487. Courses taught: *Applied Differential Equations, Calculus*, *Intermediate Algebra*.
September 1993 – 1996	Being an assistant of a professor I taught all levels of Advanced Calculus at Sofia University, Sofia, Bulgaria
March 1992 - June 1998	Mathematician at the Bulgarian Academy of Sciences – Institute of Mathematics, Sofia, Bulgaria
September 1989 - September 1991	Programmer at the Institute of Informatics, Sofia, Bulgaria

TEACHING EXPERIENCE

Year	**University**	**Classes taught**
2001- 2004	Ball State University	Discrete Mathematics, Calculus I, Calculus II, Applied Calculus, Business Calculus, Mathematics and its Applications, Linear Algebra.
1998 - 2001	The University of Alabama	Applied Differential Equations, Calculus, Intermediate Algebra.
September 1993 - 1996	Sofia University, Sofia, Bulgaria	Calculus I, Calculus II.

RESEARCH INTERESTS

Geometric Tomography, General Topology, Convex and Discrete Geometry; Banach Space Theory, Convex Analysis, Infinite-Dimensional Topology, Selection Theory, Topological Vector Spaces
Mathematics Subject Classification Numbers: 57, 52, 54

RESEARCH GRANTS

[1]   Grant 040.11.120 given by the Netherlands Organization for Scientific Research (NWO)

[2]   One-year Ball State Research Grant

[3]   A member of the three-year grant MM-420/94 given by the Bulgarian National Foundation for Scientific Researches at the Bulgarian Ministry of Education.

[4]   A member of the three-year grant MM-28/91 given by the Bulgarian National Foundation for Scientific Researches at the Bulgarian Ministry of Education.

MEMBERSHIP

A member of American Mathematical Society (AMS)

FELLOWSHIPS, AWARDS AND RECOGNITIONS

Ball State Research Grant – 2002-2003

Henry Miller Fellowship - Fall 1999, Spring 2000, Fall 2000, Spring 2001

2000-2001 Outstanding Dissertation Award

1999-2000 Outstanding Research by a Doctoral Student Award

Graduate Teaching Assistantship - 1998 – 2001

STUDENTS

Maurits van der Meer (co-advising with Jan J. Dijkstra) – MSc student, Free University – Amsterdam, Master's thesis: "On Cantor sets with shadows of prescribed dimension"

LANGUAGES

Fluent – Bulgarian, English

Very good – Russian, German

RESEARCH PROJECT VISITS

VRIJE UNIVERSITEIT AMSTERDAM – June 2002, July 2003, June 2004, October 2005,
Oct.-Nov. 2006, Feb.-March 2008, Sept.-Dec. 2009, May 2013

OTHER ACTIVITIES

Member of the Organizing Committee of the International Conference "Complex Analysis and Applications '13", Sofia, 31 Oct. - 2 Nov. 2013.

PRESENTED PAPERS

[1]   *Some properties of gF-topological spaces* at The Joint Sofia-Nish Seminar, June 1994, Gulechiza, Bulgaria.

[2]   *Factorization of set-valued mappings* at The Spring Topology Conference, 18-21 March 1999, Salt Lake City, Utah.

[3]   *On compacta with convex projections* at   AACTM 50th Annual Meeting at Troy State University, Troy, Alabama, February 12, 2000.

[4]   *More on compacta with convex projections* at The Spring Topology Conference, 16-19 March 2000, San Antonio, Texas.

[5]   *Some properties of closed sets with convex projections in* R^n at Applied Mathematics Meeting, December 2, 2000, Huntsville, Alabama.

[6]   *On boundary avoiding continuous selections* at the Annual AMS Meeting, 10-13 January 2001, New Orleans, Louisiana.

[7]   *On boundary avoiding selections and some extension theorems* at Ben Fitzpatrick Memorial Topology Conference, February 9-10, 2001, Auburn University, Auburn, Alabama.

[8]   *Convex projections of closed sets in R^n* at 14th Real Analysis Conference, March 30-31, 2001, University of Louisville, Louisville, Kentucky.

[9]   *On closed sets with convex shadows in R^n* at 18th Annual Workshop in Geometric Topology, June 21-23, 2001, Oregon State University, Corvallis, Oregon.

[10]   *On closed sets with convex projections in Hilbert space (**30-minute invited talk**)* at the Annual AMS Meeting, January 15-18, 2003, Baltimore, Maryland.

[11]   *Zero-dimensional screens and k-imitations in Hilbert space* at The Spring Topology and Dynamical Systems Conference 2003, March 20-22, 2003, Texas Tech University, Lubbock, Texas.

[12]   *Projections onto finite-dimensional planes in Hilbert space* at the Spring Topology and Dynamical Systems Conference 2004, March 25-27 2004, University of Alabama at Birmingham, Birmingham, Alabama.

[13]   *On closed and convex sets in l^2 with empty geometric interiors* at the International Conference "Complex Analysis and Applications '13", Sofia, 31 Oct. - 2 Nov. 2013.

[14]   *On closed `minimal` k-imimitations of closed convex sets in R^n* at the International Conference "Mathematics Days in Sofia", Sofia, July 7-10, 2014.

[15]   *More on closed convex sets in l^2 with empty geometric interiors* at International Workshop on Geometry of Riemannian and Hermitian Manifolds, Dec. 7-10, 2015, Sofia, Bulgaria.

[16]   *On some theorems related to closed convex sets in l^2 with empty geometric interiors* at Mini-conference "Topology and its Applications", June 6-7, 2016, Sofia.

[17]   *A relation between exposed points and extremal points of convex sets* at the International Conference "Mathematics Days in Sofia", Sofia, July 10-14, 2017.

[18]   *Geometric Tomography in l^2: Reconstruction of closed convex sets in l^2 with empty geometric interior* at the Spring Conference, March 16, 2019, Sofia University.
